Highlander John M. Glen, 2014-07-15 and racial justice during a critical era in southern and Appalachian history. This volume is the first comprehensive examination of that extraordinary—and often controversial—institution. Founded in 1932 by Myles Horton and Don West near Monteagle, Tennessee, this adult education center was both a vital resource for southern radicals and a catalyst for several major movements for social change. During its thirty-year history it served as a community folk school, as a training center for southern labor and Farmers' Union members, and as a meeting place for black and white civil rights activists. As a result of the civil rights involvement, the state of Tennessee revoked the charter of the original institution in 1962. At the heart of Horton's philosophy and the Highlander program was a belief in the power of education to effect profound changes in society. By working with the knowledge the poor of Appalachia and the South had

gained from their experiences, Horton and his staff expected to enable them to take control of their own lives and to solve their own problems. John M. Glen's authoritative study is more than the story of a singular school in Tennessee. It is a biography of Myles Horton, co-founder and long-time educational director of the school, whose social theories shaped its character. It is an analysis of the application of a particular idea of adult education to the problems of the South and of Appalachia. And it affords valuable insights into the history of the southern labor and the civil rights movements and of the individuals and institutions involved in them over the past five decades.

Mini Down Under Donn Anderson,2009-03-02 Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

White Supremacy in Children's Literature Donnarrae MacCann,2013-02-01 This penetrating study of the white supremacy myth in books for the young adds an important dimension to American intellectual history. The study pinpoints an intersecting adult and child culture: it demonstrates that many children's stories had political, literary, and social contexts that paralleled the way adult books, schools, churches, and government institutions similarly maligned black identity, culture, and intelligence. The book reveals how links between the socialization of children and conservative trends in the 19th century foretold 20th century disregard for social justice in American social policy. The author demonstrates that cultural pluralism, an ongoing corrective to white supremacist fabrications, is informed by the insights and historical assessments offered in this study.
