[The China Mission: George Marshall's Unfinished War, 1945-1947](#) Daniel Kurtz-Phelan, 2018-04-10 An Economist Best Book of 2018 New York Times Book Review Editor's Pick "Gripping [and] splendid.... An enormous contribution to our understanding of Marshall."—Washington Post At the end of World War II, General George Marshall took on what he thought was a final mission—this time not to win a war, but to stop one. In China, conflict between Communists and Nationalists threatened to suck in the United States and escalate into revolution. Marshall's charge was to cross the Pacific, broker a peace, and prevent a Communist takeover, all while staving off World War III. At first, the results seemed miraculous. But as they started to come apart, Marshall was faced with a wrenching choice—one that would alter the course of the Cold War, define the US-China relationship, and spark one of the darkest-ever turns in American political life. The China Mission offers a gripping, close-up view of the central figures of the time—from Marshall, Mao, and Chiang Kai-shek to Eisenhower, Truman, and MacArthur—as they stood face-to-face and struggled to make history, with consequences and lessons that echo today.

[China's Crisis of Success](#) William H. Overholt, 2018-01-11 China's Crisis of Success provides new perspectives on China's rise to superpower status, showing that China has reached a threshold where success has eliminated the conditions that enabled miraculous growth. Continued success requires re-invention of its economy and politics. The old economic strategy based on exports and infrastructure now piles up debt without producing sustainable economic growth, and Chinese society now resists the disruptive change that enabled earlier reforms. While China's leadership has produced a strategy for successful economic transition, it is struggling to manage the politics of implementing that strategy. After analysing the economics of growth, William H. Overholt explores critical social issues of the transition, notably inequality, corruption, environmental degradation, and globalisation. He argues that Xi Jinping is pursuing the riskiest political strategy of any important national leader. Alternative outcomes include continued impressive growth and political stability, Japanese-style stagnation, and a major political-economic crisis.

**Christianity in China** Archie R. Crouch, 1989 A bibliographical guide to the works in American libraries concerning the Christian missionary experience in China.

Christianity in China Xiaoxin Wu, 2015-07-17 Now revised and updated to incorporate numerous new materials, this is the major source for researching American Christian activity in China, especially that of missions and missionaries. It provides a thorough introduction and guide to primary and secondary sources on Christian enterprises and individuals in China that are preserved in hundreds of libraries, archives, historical societies, headquarters of religious orders, and other repositories in the United States. It includes data from the beginnings of Christianity in China in the early eighth century through 1952, when American missionary activity in China virtually ceased. For this new edition, the institutional base has shifted from the Princeton Theological Seminary (Protestant) to the Ricci Institute for Chinese-Western Cultural Relations at the University of San Francisco (Jesuit), reflecting the ecumenical nature of this monumental undertaking.

**The Conversion of Missionaries** Xi Lian, 1997 Like many of her fellow missionaries to China, Pearl Buck found that she was not immune to the influence of her adopted home. Some missionaries even found themselves convert[ed] ... by the Far East. In this book Lian Xi tells the story of Buck and two other American missionaries to China in the early twentieth century who gradually came to question, and eventually reject, the evangelical basis of Protestant missions as they developed an appreciation for Chinese religions and culture. Lian Xi uses these stories as windows to understanding the development of a broad theological and cultural liberalism within American Protestant missions, which he examines in the second half of the book.

**A History of Christianity in Asia, Vol. II** Samuel Hugh Moffett, 2014-07-30 The story of Christianity in the West has often been told, but the history of Christianity in the East is not as well known. The seed was the same: the good news of Jesus Christ for the whole world, which Christians call the gospel. But it was sown by different sowers; it was planted in different soil; it grew with a different flavor; and it was gathered by different reapers. It is too often forgotten that the faith moved east across Asia as early as it moved west into Europe. Western church history tends to follow Paul to Philippi and to Rome and on across Europe to the conversion of Constantine and the barbarians. With some outstanding exceptions, only intermittently has the West looked beyond Constantinople as its center. It was a Christianity that has for centuries remained unashamedly Asian. A History of Christianity in Asia makes available immense amounts of research on religious pluralism of Asia and how Christianity spread long before the modern missionary movement went forth in the shelter of Western military might. Invaluable for historians of Asia and scholars of mission, it is stimulating for all readers interested in Christian history.

*China Mission* Audrey Ronning Topping, 2013-10-07 When the Reverend Halvor Ronning, his sister Thea, and fellow missionary Hannah Rorem set out in 1891 to found a Lutheran mission and school in the interior of China, they could not have foreseen the ways in which that decision would ripple across generations of the Ronning family. Halvor and Hannah

would marry, and their son Chester, born in Hubei Province in 1894, would spend over half his life in China as a student, teacher, and a Canadian diplomat. Chester's daughter, Audrey, studied at Nanking University during the Chinese Civil War and later spent decades reporting on the People's Republic of China for the New York Times, Foreign Affairs, and many other publications. During the last century, Audrey Topping notes, a member of our family was there for almost every event of importance. China Mission presents a personal history of her family's ties to their adopted home and the momentous events that radically changed one of the most powerful countries in the world. The Ronnings found Imperial China at the end of the nineteenth century to be a nation on the cusp of change, and they were swept up as both observers and participants in these dramatic events. During their years as missionaries, the Ronnings witnessed the Boxer Uprising in 1898, the subsequent Palace Coup and the Siege of Peking, the death of the last emperor, and the collapse of China's dynasty system. They also endured personal challenges -- famine, births, deaths, and the almost constant threat of attack -- that were countered with songs, celebrations, friendship, and a deep appreciation for the culture of which they had become a part. Later, Chester Ronning would return to China, as would his daughter Audrey, bringing their family's story to the end of the twentieth century. This extraordinary account, compiled from the diaries, letters, and photographs of three generations, offers modern readers a rare and remarkable look at a world long gone.

*Thriving in Crisis* Dewei Zhang, 2020-05-19 Late imperial Chinese Buddhism was long dismissed as having declined from the glories of Buddhism during the Sui and Tang dynasties (581-907). In recent scholarship, a more nuanced picture of late Ming-era Buddhist renewal has emerged. Yet this alternate conception of the history of Buddhism in China has tended to focus on either doctrinal contributions of individual masters or the roles of local elites in Jiangnan, leaving unsolved broader questions regarding the dynamics and mechanism behind the evolution of Buddhism into the renewal. *Thriving in Crisis* is a systematic study of the late Ming Buddhist renewal with a focus on the religious and political factors that enabled it to happen. Dewei Zhang explores the history of the boom in enthusiasm for Buddhism in the Jiajing-Wanli era (1522-1620), tracing a pattern of advances and retrenchment at different social levels in varied regions. He reveals that the Buddhist renewal was a dynamic movement that engaged a wide swath of elites, from emperors and empress dowagers to eunuchs and

scholar-officials. Drawing on a range of evidence and approaches, Zhang contends that the late Ming renewal was a politically driven exception to a longer-term current of disfavor toward Buddhism and that it failed to establish Buddhism on a foundation solid enough for its future development. A groundbreaking interdisciplinary study, *Thriving in Crisis* provides a new theoretical framework for understanding the patterns of Buddhist history in China.
