Business and Society Anne T. Lawrence, James Weber, James E. Post, 2004-04-01 *Business and Society: Stakeholder Relations, Ethics and Public Policy* by Lawrence/Weber/Post, has continued through several successive author teams to be the market-leader in its field. For over thirty years, *Business and Society* has been updated and reinvented in response to society's relationship to business. *Business and Society, 11e* highlights why government regulation is sometimes required as well as new models of business-community collaboration. *Business and Society, 11e* is a book with a point of view. Lawrence, Weber and Post believe that businesses have social (as well as economic) responsibilities to society; that business and government both have important roles to play in the modern economy; and that ethics and integrity are essential to personal fulfillment and to business success. The book is designed to be easily modularized; an instructor who wishes to focus on a particular portion of the material may select individual chapters or cases to be packaged in a Primis custom product.

Business Law Jamie Darin Prekert, A. James Barnes, Joshua E. Perry, Todd Haugh, Abbey R. Stemler, 2021-03 This is the 18th Edition (and the 24th overall edition) of a business law text that first appeared in 1935. Throughout its more than 80 years of existence, this book has been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book's success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these traditional subjects and to new views about that curriculum. In 1976, this textbook was the first to inject regulatory materials into a business law textbook, defining the legal environment approach to business law. Over the years, this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues, and the law of an increasingly digital world. The 18th Edition continues to emphasize change by integrating these four areas into its pedagogy--

The Whole Brain Business Book, Second Edition: Unlocking the Power of Whole Brain Thinking in Organizations, Teams, and Individuals Ned Herrmann, Ann Herrmann-Nehdi, 2015-08-21 The long-awaited update of the classic guide to outperforming the competition using Herrmann International's trademark Whole Brain Methodology Packed with new research, updated examples, and more actionable content, The Whole Brain Business Book outlines four basic thinking styles--administrator, talker, problem-solver, dreamer--corresponding to the four quadrants of the brain and explains that many are dominated by only one quadrant. By getting out of the brain rut and channeling all four quadrants, business people and organizations can become more flexible, creative, and competitive. Herrmann-Nehdi uses her extensive research and experience working with her father and expert practitioners across the globe to highlight new research developments, replace outdated information, incorporate new stories and real-world examples while building on the core applications of The Whole Brain Business Book.

Economy Today Bradley R. Schiller, 2002-05 The Economy Today is exceptionally well suited for this task. From its inception, this text has been motivated by policy issues. The primary goal has been to help students understand the challenges of economic policy and the consequences of specific actions like tariffs, regulation, and tax reform. It has always provided a balanced discussion of these issues, allowing students to assess different perspectives on critical issues. For this

edition, instructors will particularly appreciate the unique chapters that provide a solid foundation for explaining, illustrating, and assessing major Trump initiatives. Chapter 16, for example, is devoted to supply-side theory, a core foundation of Trumponomics. Students can explore the theoretical basis for tax cuts, deregulation, and immigration reform. Chapter 35 on international trade goes beyond the theory of comparative advantage to explain why and how some market participants seek to erect trade barriers. The unique chapter devoted to deregulation (Chapter 27) examines the rationale for government regulation of industry, the inherent trade-offs, and the consequences of (de)regulation. The same kind of insistence on critical thinking about policy issues is apparent in Chapter 28 on environmental protection--

Business and Professional Communication Kory Floyd, Peter W. Cardon, 2020 Students preparing to succeed in today's workplace require solid training in communication skills and principles, as well as experience applying them in realistic professional contexts. In *Business and Professional Communication*, Kory Floyd and Peter Cardon incorporate substantial business-world experience throughout the text's principles, examples and activities. They ensure that the theories, concepts, and skills most relevant to the communication discipline are fully represented. The result is a program that helps students understand and apply communication skills in both their personal and professional lives. The 'People First' feature presents students with realistic scenarios that are sensitive, discomfiting, or tricky to manage. It then teaches students how to navigate those situations effectively. This gives students concrete skills for preserving relationships with others as they encounter these difficult conversations. Unique to the market, this text includes a dedicated chapter focused on perspective-taking: covering the processes of person-perception; common perceptual errors; the self-serving bias and the fundamental attribution error; the self-concept; and the processes of image management. This equips students to understand and pay attention to the perspectives of others. *Business and Professional Communication* also includes a dedicated chapter focused on career communication, encouraging students to engage in networking and to consider the priorities and points of view of others as they seek employment and begin to interact professionally.
